# MS Word Plug-in Release Notes Mar 2013

## Overview

This document describes feature enhancements and fixed issues for Sugar Plug-in for Microsoft Word, March 2013 release.

## Feature Enhancements

The following feature enhancements are included in this release of the Sugar Plug-in for Microsoft Word:

- **Merge fields limit increased** : Word Plug-in now allows a larger number of merge fields to be added on the mail merge template.

## Fixed Issues

The following issues have been resolved in this release of the Sugar Plug-in for Microsoft Word. [Case Portal users](#) can access the [case portal](#) for more details about each issue:

- **30149** : Long field names may be truncated in the mail merge template.
- **49236** : Invalid Merge Field message appears when performing mail merge with a template containing a large number of fields.
- **60791** : Word Plug-in returns no search results when the record's name in Sugar contains an apostrophe.

## Platform Updates

For a complete list of platform requirements and supported environments, please refer to the [Plug-ins Supported Platforms](#) page.
