Sugar Community Edition 6.5.6 Release Notes

Overview

This document describes feature enhancements, known and fixed issues, supported platforms, and acknowledgments for Sugar Community Edition 6.5.6.

For information on Sugar installation, upgrade, and conversion packages, see this Knowledge Base article.

Feature enhancements

Enhancements to existing features for Release 6.5.6 are listed below:

- New iCal and vCal integration URL — Shared calendars with third party integrations (such as Microsoft Outlook or Exchange) require a new, more secure URL to prevent unauthorized publishing of Sugar Calendars
- Ability to select all Meeting and Call invitees — Related To field value in Calls

Fixed issues

Due to the high volume of bugs fixed in Release 6.5.6, only bugs with escalations and High/UrgentPriorities have been listed below:

45538 — Pipeline by Sales Stage Chart Dashlet displays overlapped values

50838 — Web Service get_relationships returns all records instead of ones matching related_module_query parameter

54187 — Removing Priority field from Cases List View, Subpanel, or Dashlet (via Admin>DeveloperTools>Studio>Cases>Layout) incorrectly displays a blank Status

56087 — Creating a Contact from a vCard results in an error message

56620 — Contact name disappears from Activities subpanel in Accounts if an Activity (Meeting or Call) is logged with a related Contact and then edited in the Account'sActivity subpanel

56694 — Integer type fields (with Max Value set as null) display error messages if populated with values higher than 100 after upgrading to Sugar 6.5.5

For more information on a bug or to provide feedback, use the SugarCRM Bug Tracker located at <http://www.sugarcrm.com/support/bugs.html>. To view the complete list of bugs fixed in this specific release, run a search using 6.5.6 in the Targeted Release field. Look for the bugs marked Fixed in the Resolution field.

To report a new issue found in this release, use 6.5.6 in the Found in Release field. Check the Bug Tracker for known issues prior to submitting bugs. You will be able to update existing bugs with additional information, as necessary.

Supported platforms

For information on supported platform components, see [Sugar 6.5.x Supported Platforms](#).
