Sugar Community Edition 6.5.1 Release Notes

Overview

This page describes fixed issues, supported platforms, and acknowledgments for Sugar Community Edition 6.5.1.

For information on Sugar installation, upgrade, and conversion packages, see this Knowledge Base article.

Fixed issues in Sugar 6.5.1

Due to the high volume of bugs fixed in Release 6.5.1, only bugs with escalations and High/UrgentPriorities have been listed below:

- 39599 — Lead data with special characters submitted via Web-to-Lead forms is truncated
- 45282 — Change Log displays incomplete list of updates
- 50126 — Unchecking Create Account or Select Account in the Lead Conversion page empties the (Account) Name field
- 50437 — Email disappears from the Compose Email pane (Emails module) after switching to the Inbox tab, moving the separation pane, and returning to the Compose tab
- 50843 — Editing a Call record and saving it removes the Contact record from the Call
- 52000 — Creating a custom one-to-many relationship between a module and itself and selecting multiple records in the subpanel adds the last selected record only
- 52263 — Sending an email with Gmail as the InboundEmail client creates two Sent
- 52543 — Editing Calendar activities in modules removes the records from Calendar
- 52783 — Navigating to more records in List View of Leads and Contacts displays a blank page
- 52939 — Price field displays incorrect currencies in Products sub-panels
- 53412 — Values in custom drop-down lists in Users module cannot be selected and saved
- 53662 — Text from one email draft is copied to the second email draft if multiple email drafts are open in the Emails module
- 53707 — Email is sent to incorrect recipient and contains incorrect body text if multiple drafts are open in the Emails module
- 53713 — Repair/build sprite code does not check the custom/ directory for new images
- 53963 — Indexes and primary keys missing in *_audit (for example, accounts_audit

For more information on a bug or to provide feedback, use the SugarCRM Bug Tracker located at <http://www.sugarcrm.com/support/bugs.html>. To view the complete list of bugs fixed in this specific release, run a search using 6.5.1 in the Targeted Release field. Look for the bugs marked Fixed in the Resolution field.

To report a new issue found in this release, use 6.5.1 in the Found in Release field. Check the Bug Tracker for known issues prior to submitting bugs. You will be able to update existing bugs with additional information, as necessary.

Supported platforms

For information on supported platform components, see [Sugar 6.5.x Supported Platforms](#).

Acknowledgments
