Known Issues

The following are known issues with Sugar 6.7.13:

- 59109: Sales managers' "No Opportunities" checkbox available in User Profile > Advanced is not respected in the Forecasts module.
- 59213 : Renaming the Forecasts module in Admin > Rename Modules does not affect all instances of the word "Forecast".
- 61232 : After an opportunity is first loaded to the Forecasts module, any updates to the opportunity's probability will not affect its forecasting range. The opportunity will retain the original range designation throughout the
