Sugar Professional 6.5.8 Release Notes

Overview

This document describes enhancements to existing features, known and fixed issues, supported platforms, and acknowledgments for Sugar Professional 6.5.8.

Feature enhancements

Enhancements to existing features for Release 6.5.8 are listed below:

- Disabled OK button in Module Loader : OK button in Ready to Install step in Module Loader disables after the first click to avoid SQL errors
- Ability to select all Meeting and Call invitees : Related To field value in Create forms in in Calls and Meetings modules automatically added as a Meeting or Call attendee

Fixed issues

Due to the high volume of bugs fixed in Release 6.5.8, only bugs with escalations and High/Urgent Priorities have been listed below:

- 49024 : Relationships created in earlier versions cause conflicts and AJAX errors after upgrade
- 53516 : Meetings cannot be saved in workflows on related modules
- 53845 : Complete float values are displayed in Outcome by Month graph Dashlet for Opportunities created with different currencies (with different conversion factors)
- 54265 : Clicking Search icon or pressing Enter does not automatically append wildcard character to the search string for Global Search with full text search
- 55888 : Filtered Project Tasks List View cannot be sorted
- 55923 : Workflow does not initiate if date_field is modified
- 55942 : Invalid updates by Sugar Logic initiate workflows in incorrect related records
- 56652 : Sorting by Account Name in sub-panels results in a SQL error
- 56746 : Dependent Fields with checkboxes are not displayed in List Views if the checkbox is not on the List View
- 56904 : Merging records (Accounts and Opportunities modules) does not remove relationships to previous records and display duplicate records in List View

-
- 57309 : Attachments are removed from incoming emails from Live, Hotmail, and MSN email accounts

For more information on a bug or to provide feedback, use the SugarCRM Bug Tracker located at <http://www.sugarcrm.com/support/bugs.html>. To view the complete list of bugs fixed in this specific release, run a search using 6.5.8 in the Targeted Release field. Look for the bugs marked Fixed in the Resolution field.

To report a new issue found in this release, use 6.5.8 in the Found in Release field. Check the Bug Tracker for known issues prior to submitting bugs. You will be able to update existing bugs with additional information, as necessary.

Supported platforms

For information on supported platform components, see [Sugar 6.5.x Supported Platforms](#).
