# IBM Notes Plug-in Release Notes 2.1.4

## Overview

This document describes feature enhancements and fixed issues for the Sugar Plug-in for IBM Notes 2.1.4. For information about supported versions of IBM Notes, refer to the [Plug-ins Supported Platforms](#).

## Feature Enhancements

The following feature enhancements are included in this release of the Sugar Plug-in for IBM Notes:

- **Syncing meeting invitees** : Users can now sync invitees on a meeting record in IBM Notes to Sugar via the Required field so long as the invitee already exists as a contact or lead in Sugar.

## Fixed Issues

The following issues have been resolved in this release of the Sugar Plug-in for IBM Notes. [Support Portal users](#) can use the following links for more details about each issue:

- [72512](#), [75216](#) : In Sugar, if the Team Name field is visible on a module's list view, then records may not appear as expected in the search results when attempting to link a Sugar record to IBM Notes.
- [74239](#) : The account name on an IBM Notes contact record does not sync to Sugar as expected.
- [74450](#) : A recurring meeting created in Sugar where the recurring day differs from the start day may have its first meeting removed from the IBM Notes calendar once the series has been synced to and saved in IBM Notes.
- [75156](#) : If an email is sent from IBM Notes to a Sugar contact and then linked to a Sugar account, the email does not appear under the Sugar contact as expected.
- [75599](#) : The "Select Email from Sugar" option in IBM Notes does not work as expected if the contact name in Sugar contains special characters.
- [75644](#) : Users may receive multiple error messages when using IBM Notes in offline mode.
- [75646](#) : If a meeting is created in IBM Notes and has an attachment, the record does not sync to Sugar as expected.

---

## Known Issues

The following are known issues in this release of the Sugar Plug-in for IBM Notes. [Support Portal users](#) can use the following links for more details about each issue:

- [71955](#) : Past activities (e.g. meetings) synced from IBM Notes to Sugar improperly display as open activities with an Overdue status.
- [74482](#) : Importing a vCard from IBM Notes to Sugar does not work as expected.
- [74792](#) : When the Calendar Records option is set to "Only sync linked Calendar Records to Sugar", linked activities in IBM Notes which have been marked as "Private" incorrectly sync to Sugar.
